EXPERIENCE

ShareWallet (Startup Project)
Self-Initiated Startup

June 2024 – Present

- Conceptualized and developed a financial planning app to provide emergency funds at 0% interest through a group-based savings system.
- Created a prototype and participated in startup competitions to pitch the idea.
- Selected for the Microsoft for Startups Founders Hub, providing access to business resources.

Hackathon Participant – Code Fury 7.0
UVCE, Bangalore

Aug 2024

- Collaborated on Suraksha, a disaster management web application designed for better emergency response.
- Enhanced teamwork and problem-solving skills through live coding challenges during the 24-hour event.

Subject Matter Expert – Chegg and Brainly
Freelance/Part-Time

Sep 2019 – Nov 2021

- Solve advanced-level questions for JEE aspirants in subjects like Mathematics and Physics.
- Gained expertise in breaking down complex problems into simple, understandable solutions.

Project Lead – ShareWallet Features Section
Self-Initiated Startup Web Development Project

Dec 2024

- Designed and implemented a responsive features section with a glassmorphism effect for the company website.
- Integrated user-friendly navigation and visual enhancements using HTML, CSS, and JavaScript.

PROJECTS

E-Cell SMVIT Website | *HTML, CSS, JavaScript*

[View Project](#)

- Designed and developed the official website for the Entrepreneurship Cell at Sir M. Visvesvaraya Institute of Technology.
- Implemented a responsive design for seamless user experience across devices.

WeThinkElastic & Sundow | *GSAP, Locomotive.js*

[View WeThinkElastic](#) — [View Sundow](#)

- Developed visually dynamic websites integrating smooth transitions and modern animation libraries.
- Leveraged ScrollTrigger for engaging and interactive content displays.

Swiggy Login/Signup Page Clone | *UI/UX Design*

[View Project](#)

- Designed and prototyped the login and signup pages of Swiggy with a user-friendly interface.
- Focused on replicating the original design while maintaining usability and aesthetics.

StudyMate – Task Management Application | *UI/UX Design*

[View Project](#)

- Designed an intuitive user interface for a task management app aimed at students for better productivity.
- Included features like task categorization, reminders, and progress tracking.

ShoeDekho | *UI/UX Design*

[View Project](#)

- Conceptualized and designed a web application for showcasing and selling shoes.
- Focused on intuitive navigation and appealing product displays.
